WHOLESALE PRICE LIST

Fall 1950

Spring 1951

IMPORTANT NOTICE

This is a wholesale price list and for people who are engaged in nursery and floral trades only.

As we do not publish a retail price list this year, we ask our retail customers (those who are not engaged in nursery or floral trades) to figure their prices from this catalogue. Please

ADD 20%
to the list prices.

Even with this addition, our present prices are lower than the prices of former years which were listed in our retail catalogues.

TERMS OF SALE

CONDITIONS—We accept all orders on condition that they shall be void should injury beyond our control befall the stock. All quotations are subject to prior sale of stock. Prices listed cancel all previous quotations.

PRICES—Five and fifty of one variety and size at the 10 and 100 rate respectively.

CASH & CARRY—On carload or truckload orders where crating is not necessary, we offer a 20% discount from all B&B plants including grafted Camellias, and Azaleas, except Azalea liners. This discount does not apply to any bare-root stock.

PAYMENTS—Cash with order. C.O.D. shipments will be made only when a twenty-five per cent deposit accompanies order.

CLAIMS—All claims must be made immediately upon receipt of stock. We shall be glad to adjust any mistake made by us, but in no case will our liability exceed the purchase price.

TRANSPORTATION—All prices F.O.B. Mobile. We make no charge for delivery to carrier, but our liability ceases when goods are turned over to carrier, and risks and cost of transportation belong to purchaser.

We are open for business from 7 A. M. to 4 P. M. on week days, Saturday till noon, and no business on Sundays. You are cordially invited to visit us during our business hours.

CAMELLIA JAPONICAS

ABBREVIATIONS: E—Early; M—Midseason;
L—Late (time of blooming).

B.R., Bare-rooted; B&B, Balled and Burlapped.

Most of our potted Camellias of this year are ready for immediate shipment, because they were potted last winter to early summer. We can hold them over 'till winter or spring. They are far better than any potted camellias we ever offered.

Lining out Camellias which are excellent quality and value, can be shipped as soon as they become dormant. We have some varieties by the thousands, but a rather limited supply of others and we urge you to place your order early, to avoid disappointment.

Our 12-18 inch and 18-24 inch sizes liners marked (branched) are plants grown in lath houses for two years or more, and nice heavy plants.

C. M. WILSON (M)

Out of the hundreds of varieties of Camellias which have been introduced throughout the years, you will find

that Chandleri Elegance continues to hold its place and stand out above all others, when you disregard newness or rareness of a variety. C. M. Wilson is a flesh pink sport of Chandleri Elegance, retaining all the merits of the mother plant and rising to new heights of rareness by virtue of being an exquisite hue which is truly breathtaking. Silvery pink fades into blush and white towards the edges of the petals. The contrast of golden yellow anthers with delicate flesh pink petals and the formation are more of the highly prized rare tree peony flower than of the Camellia.

All introducers of new varieties consider their creations the best and recommend them as such, but we leave to you and your customers, the judgment of the value of this charming new coloring of one of the oldest standbys. Our observation of hundreds of these flowers in bloom did not reveal a single one which reverted back to its parents.

Do not fail to stock up on this outstanding variety to supply your customers' demands, which will undoubtedly increase from year to year, for many years to come. Look for this sensational flower at your Camellia Shows this fall and winter.

Semi-double pink of compact growth.

DAWN (Akebono)

Semi-double, wavy petals with flesh pink margin. Very hardy. Up to 18-24".

DAY DREAM

Quite large size single to semi-double white flowers with pink edges. The most outstanding merits of this variety is its leaves, growth habit and general shape. Leaves are large, thick and dark green. Very fast and strong upright grower, but form compact pyramidal shape, similar to upright Wax Privet (*Ligustrum lucidum compactum pyramidalis*). An ideal plant for the corner planting or when variations are needed for skyline. A great addition to our better class Sasanqua collection, and recommend an extensive planting.

SETSU GEKKA

Large, semi-double white flower with tint of blush on margin. Broad petals are slightly ruffled. Excellent variety. No liner sizes.

TEXAS STAR

Good size white of exceedingly fast grower.

HIBISCUS ROSA SINESIS (Chinese Hibiscus)

A great opportunity is offered to Nurserymen of the South, where tremendous home developments have been made, to capitalize on the keen demand for more attractive summer blooming plants.

The Chinese Hibiscus are among the most beautiful of summer blooming plants, especially the newly-introduced varieties which are of truly breath-taking beauty. The recently formed Hibiscus Society of America indicates the awakening of public interest in this long neglected subject.

In sections where it is too cold to kill this rather tender plant, we advise banking with soil, about 8 inches high, to protect the crown of plants, before freezing weather. In spring remove the soil and cut back to live wood, and you will have bushy blooming plants before early summer.

We are offering some of the best varieties of the present time, grown in full sun, from 3" pots.

AGNES GALT

Very large, single, bright shrimp-pink flowers, slightly reflexed overlapping petals. Vigorous and free blooming and one of the most popular varieties.

DOUBLE RED

Large size deep red, double flowers. Vigorous grower.

FAIR JEANNETT (Jane Everson)

Very large single, ruffled and reflexed. Bright yellow with a deep red center.

FLORIBUNDA

Single, windmill type, white with red center. Small, neat foliage. Free bloomer.

FLORIDA GEM

Single, very broad, overlapping petals. Bright pink. One of the most crinkled and ruffled of all Hisbiscus.

GRANDIFLORA

Large, single, broad-petaled flowers of light crimson blending to deep pink toward center with deep red eye.

HAWAIIAN HYBRID

Small, single, salmon pink.

INDIAN CHIEF

Very large, single red with lighter shading at the base of petals and without darker center.

LAMBERTI

Medium size, very double, formal type; growing crimson.

MINERVA

Single, deep pink slightly veined with dark center. Very vigorous grower with dark green leaves and showy.

MRS. WILDER

Single, windmill type, with long, light pink petals and yellow stamens.

PEACHBLOW

Large, very double, with reflexed petals. Soft pink with darker center.

PINK BEAUTY (Versicolor: Lone Star State)

Very large, single, bright pink with edges of petals shading to white, suggesting a "Texas Star." Very popular.

PSYCHE

Small, single, bright scarlet flowers completely cover the plant. Brilliant ruffled flowers of exquisite form.

SHIRLEY TEMPLE (La France: Dainty)

HARDY JAPANESE AZALEAS

This group of Azaleas can stand good deal of cold weather, being hardier than Indica or Kurume, and is recommended for planting in northern belts of South States, but they will also do well on Gulf Coast.

KAEMPFERI

Pink to orange red flowers of rather late season. Does well in lower South, but also hardy in New England States.

MACRANTHA DOUBLE

Double flowering pink of Macrantha, doing well in lower south as well as in very cold climate. Liners only.

MACRANTHA, ORANGE

Orange red flowers of above variety. These Macrantha can stand more hot sun and dry weather, as well as cold, far better than Indicas.

MAXWELL

Large, white flowers with pinkish throat. Fast, upright grower.

PRICES ARE SAME AS INDICAS.

KURUME AZALEAS

CHRISTMAS CHEER

Small, deep crimson, hose-in-hose flowers. Compact grower.

CORAL BELL

Coral pink, hose-in-hose very profuse bloomer, is probably the most popular variety of all Kurume. Fine for forcing.

HEXE (Firefly)

Large, bright scarlet, hose-in-hose of compact grower.

HINO-CRIMSON

Similar to Hinodegiri with deeper crimson flowers which will not fade in sun, and said to be hardier than Hinodegiri. Slow, compact grower. This is a new variety and because of limited supply, the prices will be 50% higher than listed prices.

HINODEGIRI

Deep red, single flowers of good size. Very hardy and well adapted for landscape planting in northern sections of the South, as well as in the Eastern states.

HORTENSIA

Large, hose-in-hose, soft pink flowers are produced in great profusion.

PINK PEARL

Large, beautiful pink of hose-in-hose, borne in large clusters.

SALMON BEAUTY
